Professional Summary

Aspiring Python Developer with knowledge of Python programming and web development concepts. Experienced in building web applications using the MERN stack (MongoDB, Express.js, React.js, and Node.js). Quick learner with good problem-solving skills and a passion for developing efficient software solutions.

Projects

- Multi-VendorMarketplaceWebApp**
Tech Stack: *React,TypeScript,Node.js,Express.js,MongoDB*
Developed a scalable full-stack market place application supporting multiple vendors and buyer checkout with JWT-based authentication and RESTAPIs.
- Hybrid Surveillance Mechanism for Missing Criminal Detection**
Tech Stack: *Python, CNN (VGG-16), Haar Cascade, OpenCV, Flask, Deep Learning, NMS*
Developed an AI-powered surveillance system that detects and recognizes missing persons or criminals in real time using facial recognition techniques. The system generates instant alerts upon identification, enhancing public safety and reducing manual monitoring efforts.

Achievement

- Winner–CodeAQuizCompetition** **Mar2024**
Jyothishmathi Institute of Technology and Science

Experience

- MERN Stack Intern – Edupoly** **sep 2025 – March 2026**
Built end-to-end responsive web applications with RESTAPIs, authentication, using Mongo DB, Express, React and Node Js.
- Python Programming Intern – CSEEDGE** **Apr 2024–May 2024**
Developed problem solving skills through practicing fundamental programs using core python concepts.

Education

B.Tech in ComputerScience **2021 - 2025**
Jyothishmathi Institute of Technology and Science,JNTUH **CGPA:8.3**

Technical Skills

- Languages:** Python, JavaScript
- Frontend:** HTML, CSS, React.js
- Backend:** Node.js, Express.js
- Databases:** MongoDB, SQL
- Tools:** VSCode, Postman
- SoftSkills:** TeamCollaboration, AnalyticalThinking, Adaptability

Certifications

- PythonEssentials:** CISCONetworkingAcademy
- PythonProgramming:** CodeTantra
- MERNFull Stack:** EDUPOLY
- PythonProgramming:** CSEEDGE(AICTE+MSMECertified)
